Simms v. Horser 3:21-cv-321

Your Honor

PER

DEPUTY CLERK

Defendants have now completely Stripped me of all property for exercising a part of my religious requirements. That is, eating once every 3 days.

They have banned me from my legal work, books, library, and removed all off my privileges in complete violation of Phsyc policy 13.81. I'm supposed to be allowed to keep my property. - As I write this, I'm arguing about this.

Defendants are retaliating. AGAIN. They are putting me in an even more restrictive position while on non-punishment status currently, I'm housed in the most restrictive unit and they want me to move to Suicide Watch/PAC without anything which is more restrictive than the unit they want to move me from. All under the guise of "safety precautions." I need the courts intervention.

Shelu Simms

Box A

Bellefonte, Pa. 16823

They have interfered with my medical treatment (Since Defendant Rowe is the Acting healthcare administrator, member of PRC/PAC and involved with medical <sup>↑</sup>) which resulted in the denial of my Gender Dysphoria diagnosis from the DOC contracted specialist (who is also co-workers with Defendants from my other lawsuit - Simms v. Dancho, 3:20-cv-1411). This means that I am now completely barred from all Transgender treatment because "you made too big a fuss" (Hunger strikes to make them evaluate me) and because "you going full throttle" - I filed complaints/grievances over not receiving any treatment.
